

MARI OSTENDORF

Professor

Department of Electrical Engineering

University of Washington

Box 352500, Seattle, WA 98195-2500

ostendor@uw.edu

SPECIALIZATION:

Statistical modeling for signal interpretation and synthesis in speech and language processing. Current research efforts are in dynamic statistical models for speech and language processing, computational models of prosody at the interface of speech and language processing, semi-supervised learning and domain transfer, and language technology for education applications.

EDUCATION:

Stanford University, Department of Electrical Engineering

Bachelor of Science Degree, 1980

Master of Science Degree, 1981

Doctoral Degree, 1985

EMPLOYMENT:

- 1999 – present **University of Washington**, Seattle, WA 98195
Professor, Electrical Engineering, 1999 – present.
Assoc. Dean for Research and Graduate Studies, College of Engineering, 2009 – 2012
Assoc. Chair for Research, Electrical Engineering, 2001 – 2003.
Adjunct Professor of Linguistics, 2001 – present.
Adjunct Professor of Computer Science, 2002 – present.
- 2013 **Center for Language Sciences, Macquarie University**, Sydney, Australia
Visiting Professor.
- 2005 – 2006 **University of Karlsruhe**, Karlsruhe, Germany
Visiting Professor.
- 1987 – 1999 **Boston University**, Boston, MA 02215
Professor, 1999.
Associate Professor, 1993 – 1999.
Assistant Professor, 1987 – 1993.
- 1995 **ATR Interpreting Telecommunications Laboratories**, Kyoto, Japan
Visiting Researcher.
- 1985 – 1986 **BBN Laboratories, Inc.**, Cambridge, MA 02138
Scientist.
- 1981 – 1984 **Stanford University**, Stanford, CA 94305
Research Assistant.
- 1980 – 1981 **Bell Telephone Laboratories**, North Andover, MA 01845
Member of Technical Staff.

PROFESSIONAL ACTIVITIES:

• Advisory Committees

- CMU Language Technologies Institute Advisory Board, 2012
- Advisory Board, Human Language Technology Center of Excellence, Johns Hopkins University, 2010 - 2012
- External reviewer, China-Singapore Institute of Digital Media, 2011
- External reviewer, University of Sheffield Computer Science Department review, 2005
- Review Panel for the NCCR (IM)2, Swiss National Science Foundation, 2002 - 2006
- DARPA Spoken Language Research Coordinating Committee, 1993 – 1994
- DARPA ISAT Study Group on Multilingual Text and Speech Systems, 1992
- Advisory Committee for Information, Robotics and Intelligent Systems (IRIS) Program, Computer and Information Science and Engineering (CISE) Division of the National Science Foundation. (1989 - 1991, appointed by the IRIS director)

• Editorial Roles

- VP Publications, IEEE Signal Processing Society, 2012-2014
- *IEEE Trans. on Audio, Speech and Language Processing*, Editor-in-Chief, 2006 – 2008
- *IEEE Trans. on Speech and Audio Processing*, Associate Editor, 2005
- *Computational Linguistics*, Editorial Board, 2005 – 2007.
- *Computer Speech and Language*, US Editor, 1998 – 2003; Editorial Board, 1993 – 2005.

• Selected Society Committee Service

- IEEE Signal Processing Society Awards Board, 2015-2016
- IEEE Periodicals Review Advisory Committee, 2014-2016
- IEEE Products and Services Committee, 2013-2014
- IEEE Signal Processing Society Executive Committee, 2012-2014
- IEEE Signal Processing Society Board of Governors, 2009-2014
- IEEE Kilby Award Committee, 2009-2012
- IEEE Signal Processing Society Awards Committee, 2008, 2015
- IEEE Signal Processing Society, Speech Processing Technical Committee, 1990-1993
- IEEE Signal Processing Society, DSP Education Committee, 1992 - 1993
- ISCA Advisory Council, 2006 – 2013
- ISCA Distinguished Lecturer Committee, 2010-2016
- ASA Speech Technical Committee, 1996-1999

• Selected Conference and Workshop Service

- Co-chair, 2015 Jelinek Speech and Language Technology Workshop
- Co-chair, 2010 IEEE Workshop on Spoken Language Technology
- General Chair, 2009 NAACL Human Language Technologies Conference
- Co-chair, 2003 NAACL Human Language Technologies Conference
- Co-chair, 2001 ISCA Workshop on Prosody and Speech Recognition
- Co-chair, 2000 DARPA Workshop on Corpus-Based Text Generation and Synthesis
- Co-chair, 2000 IMA Workshop on Mathematical Foundations of Speech Processing and Recognition

- Chair, 1998 NSF Workshop for Discussing Research Priorities and Evaluation Strategies in Speech Synthesis
- Area Chair, 2008, 2015, 2016 EMNLP Conference
- Area Chair, 2016 NAACL Conference
- Area Chair, 2016 Interspeech Conference
- Scientific Committee, Interspeech 2007-2010, 2015
- Technical Committee, NAACL 2012 Workshop on Predicting and Improving Text Readability
- Technical Committee, ACL Workshop on Language Technology in Educational Applications 2008-2011
- Scientific Committee, 2006 IEEE/ACL Workshop on Spoken Language Technology
- Scientific Committee, 2006 International Conference on Speech Prosody
- North-American liaison, Interspeech 2005 (with N. Morgan)
- ICSLP Standing Committee, 2001 – 2004
- Group Leader at the 1996 DoD workshop on continuous speech recognition at Johns Hopkins University

HONORS/AWARDS:

- IEEE Signal Processing Society Distinguished Lecturer, 2013-2014
- Scottish Informatics and Computer Science Alliance Distinguished Visiting Fellow, 2012, Edinburgh
- Fulbright Scholar, 2012-2013
- IEEE Hewlett-Packard/Harriett B. Rigas Award, 2010
- Fellow, International Speech Communication Association, 2008
- Fellow, IEEE, 2005
- 2008 University of Washington College of Engineering Faculty Research Innovator Award
- 2007 University of Washington Electrical Engineering Department Faculty Service Award
- 1999 – present, Endowed Professor in System Design Methodologies
- 1999 IEEE Signal Processing Society Paper Award (Ostendorf, Digalakis and Kimball, 1996)
- 1998 ATR Interpreting Telecommunications Laboratories Paper Award (Ostendorf and Singer, 1997)
- Member, Sigma Xi

TEACHING EXPERIENCE:

- Undergraduate Level
 - Fundamentals of EE (Basic Circuit Theory)
 - Introduction to Probability and Statistics
 - Continuous- and Discrete-time Linear Systems
 - The Digital World of Multimedia
(a design-oriented early introduction to signal processing and communications)
- Graduate Level
 - Stochastic Processes

- Introduction to Statistical Learning (or, Statistical Pattern Recognition)
- Spectral Estimation and Modeling
- Statistical Language Processing
- Short Courses
 - Computational Extraction of Social and Interactional Meaning from Speech (Linguistics Institute 2011, with D. Jurafsky)

PUBLICATIONS:

Publications are listed by main areas of research. Journal publications are indexed with *, invited papers and book chapters with +, and conference papers with •. Reprints of papers appearing in book compilations are noted by those papers.

Low Rate Coding

- S. Roucos and M. Ostendorf Dunham, “A Comparison of Two Methods for Very-Low-Rate Speech Coding,” *Proc. of the Milcom Conference*, Boston, MA, October 1985.
- * J. Foster, R. M. Gray and M. Ostendorf Dunham, Finite-State Vector Quantization for Waveform Coding,” *IEEE Transactions on Information Theory*, May 1985, pp. 348-359. (A reprint appears in *Vector Quantization*, ed. H. Abut, IEEE Press 1990.)
- * M. Ostendorf Dunham and R. M. Gray, “An Algorithm for the Design of Labeled-Transition Finite-State Vector Quantizers,” *IEEE Transactions on Communications*, January 1985, pp. 83-89.

Acoustic Modeling for Speech Recognition

BOOKS EDITED:

Mathematical Foundations of Speech and Language Processing, ed. M. Johnson, S. Khudanpur, M. Ostendorf and R. Rosenfeld, vol. 138, IMA Volumes in Mathematics and its Applications, Springer-Verlag, New York, 2004.

Mentoring for Academic Careers in Engineering: Proceedings of the PAESMEM/Stanford School of Engineering Workshop, ed. E. Riskin, M. Ostendorf, P. Cosman, M. Effros, J. Li, S. Hemami, R. M. Gray, Grayphics Publishing, 2005.

SELECTED INVITED TALKS:

"Continuous space language processing: Beyond word embeddings," *International Conference on Statistical Language and Speech Processing*, plenary, October 2016.

"Assessing text difficulty via automatic analysis of oral reading," *IEEE Distinguished Lecture, ETS*, November 2014.

"Language as a signal: A continuous space approach," *IEEE WIE Brazil Symposium on Signal Processing*, September 2014.

"Language processing as signal processing," *AT&T Research Distinguished Speaker*, August 2013.

"Language processing as signal processing," *China Signal and Information Processing Conference*, July 2013.

"Human language: A signal processing perspective," *Women's Workshop on Communications and Signal Processing*, July 2012.

"Translatable language technology – Beyond HMMs and n-grams," *International Symposium on Chinese Spoken Language Processing*, plenary, December 2010.

"Representations of prosody in computational models for language processing," *Speech Prosody Conference*, plenary, May 2010.

"Transcribing speech for spoken language processing," *Interspeech Conference*, plenary, September 2009.

"On the role of local learning for language modeling," *NIPS Workshop on Speech and Language: Learning-based Methods and Systems*, December 2008.

"Managing spoken documents," *International Workshop on Multimedia Signal Processing*, plenary, October 2006.

"Understanding prosody for understanding speech," *Complexity Conference of the Northwestern Institute on Complex Systems*, April 2006.

"Spontaneous speech: challenges and opportunities for parsing," *International Workshop on Parsing Technologies*, plenary, October 2005.

- “Research in speech understanding”, NSF CISE Directorate review, September 1989.

Invited lectures in academic and industrial research labs: MIT-LCS (1989, 1991, 1997), BBN (1989), Xerox PARC (1990, 1992), AT&T (1991), SRI (1991, 1995, 1996), IBM (1991), Brown University (1991), NTT Tokyo (1993), ATR (1993, 1995, 1997), Cambridge University, UK (1994), Johns Hopkins University (1994, 1996, 1997), ICSI (1994), Dragon Systems (1994), DRA (1994), Microsoft (1996), MIT-RLE (1998), Ohio State University (1998), University of Edinburgh, Scotland (1999), Oregon Graduate Institute (2001), ISI/USC (2001), UCLA (2001), Tokyo Institute of Technology, Japan (2003), UW/Microsoft Linguistics Symposium (2004), Cambridge University, UK (2005), University of Karlsruhe, Germany (2006), IDIAP, Switzerland (2006), Technical University of Munich, Germany (2006), Northwestern University (2006), University of Erlangen, Germany (2006), Saarland University and DFKI, Germany (2006), INESC, Lisbon, Portugal (2006), Bosch (2007), JHU CLSP (2007), Microsoft (2008), UCLA (2008), National University of Singapore (2011), Nara Institute of Science and Technology, Japan (2012), University of Maryland, College Park (2012), Macquarie University, Australia (2012), University of Texas, Dallas (2012), University of Edinburgh, Scotland (2012), University of Glasgow, Scotland (2012), St. Andrews University, Scotland (2012), University of Canberra, Australia (2013), Chinese University of HongKong, Hong Kong (2013), University of New South Wales, Australia (2013), Macquarie University, Australia (2013), University of Western Sydney, Australia (2013), Microsoft Asia, Beijing (2013), University of Pennsylvania (2014),

Johns Hopkins University (2014), ICSI (2015), Macquarie University (2015), Microsoft (2015), Google (2015)

RESEARCH AWARDS:

(\$17.9M total, \$14M excluding subcontracts; as PI except where noted)

- “Prosody Analysis/Synthesis Using Probabilistic Models and Linguistic Theory,” NSF, 12/88-12/91 (with MIT and SRI).
- “Evaluating the Use of Prosodic Information in Speech Recognition and Understanding,” NSF-DARPA, 8/89-8/92; NSF creativity award follow-on “Use of Prosody in Speech Understanding,” 7/92-7/96 (with MIT and SRI).
- “Segment-based Acoustic Models with Multi-Level Search Algorithms for Continuous Speech Recognition,” NSF-DARPA, 8/89-8/92 (with BBN).
- “Segment-Based Acoustic Models for Continuous Speech Recognition,” DARPA-ONR, 6/92-5/95 (with BBN).
- “Duration Prediction for Text-to-Speech Synthesis,” Apple Computer, Inc., 6/92-8/92.
- “Annotating a Radio News Corpus,” Linguistics Data Consortium, 5/93-4/94.
- “Computational Modeling of Intonation,” NYNEX, 6/93 - 3/95.
- “High-order Modeling Techniques for Continuous Speech Recognition,” ONR, 1/95 – 3/97.
- “Structural Assumptions and Training Techniques for Improving the Portability of Statistical Language Models,” subcontract to BBN Inc., 9/95 – 9/98.
- “Development of Automatic Training Algorithms for Speaker-Specific F0 Generation,” subcontract to Entropic Research Lab, 1/96 – 12/96.
- “Speech Generation for Human-Computer Interaction,” NSF, 5/96 – 4/99.
- “Acoustic Modeling for Spontaneous Speech Recognition,” ATR Interpreting Telecommunications Research Laboratories, 8/96 – 7/98.
- “Speech Generation for Human-Computer Language Interfaces,” ARPA-ONR, 9/96 – 8/97.
- “Modeling Structure in Speech above the Segment for Spontaneous Speech Recognition,” NSF 3/97 – 2/00.
- “Center for Auditory and Acoustics Research,” (co-PI with L. Atlas), ONR subcontract via the University of Maryland, total grant is 1997 - 2002.
- “Workshop for Discussing Research Priorities and Evaluation Strategies in Speech Synthesis,” NSF, 7/98 – 6/99.
- “Acquisition of Computer Facilities to Support and Interdisciplinary Multidata Signal and Image Processing Laboratory,” Co-PI with H. Nawab, W. C. Karl, and D. Castañon, NSF, 9/98 – 8/01.
- “Robust recognition and dialog tracking for interactive information access,” DARPA, 1/00 – 12/03 (with ICSI).
- “Feature-Based Automatic Language Identification,” Department of Defense, 7/00 – 9/02.
- “Adaptive language modeling for automatic speech recognition of meetings,” IBM, 6/00 – 6/02.
- “Information Access to Spoken Documents,” NSF (subcontract via Mississippi State), 9/00 – 12/04.
- “Mapping Meetings: Language Technology to Make Sense of Human Interaction,” NSF (subcontract via ICSI), 9/01 – 9/05.

- “Correlation of Prosodic Structure and Phonetic Prototypes: Implications for Human and Automatic Speech Recognition,” UW Center for Mind, Brain and Learning, 7/01 – 3/02.
- “Effective Affordable Reusable Speech-to-Text,” DARPA (subcontract via SRI), 5/02 – 12/04.
- “EARS Novel Approaches: Rethinking Acoustic Processing,” DARPA (subcontract via ICSI), 6/02 – 12/04.
- “Effective Affordable Reusable Speech-to-Text: Semantic Annotation for Rich Transcription of Speech,” DARPA (subcontract via BBN), 6/02 – 12/04.
- “ITR: Translation Technology for Language Modeling,” NSF, (includes subcontract to ISI), 9/03 – 8/08, with supplement to support a summer workshop on semi-supervised learning.
- “A Collaborative Program for EE Systems Education,” NSF, 9/05 – 2/08.
- “GALE: Rich Transcription for Machine Translation,” DARPA (subcontract to SRI), 9/05 – 6/09.
- “Linguistic Cues to Social Goals in Spoken and Virtual, Private and Broadcast Interactions,” IARPA, 8/2009 – 10/2011.
- “Simplifying Text for Individualized Reading Needs,” NSF, 9/2009 – 8/2014.
- “Northwest Alliance for Access to Science, Technology, Engineering and Mathematics (AccessStemII),” Co-PI with Sheryl Burgstahler, NSF, 11/09 – 10/13.
- “Broad Operational Language Technology,” DARPA (subcontract to SRI), 10/2011 – 3/2014. [renewal pending]
- “Spoken Wordsearch with Rapid Development and Frugal Invariant Subword Hierarchies,” IARPA (subcontract from ICSI), 3/2012 – 5/2014. [renewal pending]
- “Detecting contentious discussions and outlier positions via atypical interactions,” DARPA (subcontract from BBN), 6/1/12 – 9/15/12.
- “Computational modeling of transient sources for automated marine mammal species detection,” Boeing, 1/1/12 – 6/31/15.
- “Detecting Relations and Anomalies in Text and Speech,” DARPA (subcontract from Columbia), 11/13/12 – 11/31/16.
- “RI:MEDIUM:ATAROS: Automatic Tagging and Recognition of Stance,” NSF, co-PI (with PI Gina Levow and co-PI Richard Wright), 9/16/2013 – 9/15/2015.
- Industrial gifts for collaborative research from Microsoft, Bosch, AT&T, and Google, and from Intel for educational activities.

RESEARCH AND PROJECT SUPERVISION:

- Post-doctoral researcher supervision:
 - Harriet Nock (2001-2002)
 - Ivan Bulyko (2002-2004)
 - Takahiro Shinozaki (2004-2006)
 - Gang Peng (2006-2007)
- Ph.D. Thesis supervision: (31 graduated, 8 in progress)

- Colin Wightman, EE Ph.D. 1991, Boston University
Automatic detection of prosodic constituents for parsing
(Formerly co-founder of Linguistech, Professor and Chair at Minnesota State University, Professor at Acadia University; currently at Walden University.)
- Vassilios Digalakis, SE Ph.D. 1992, Boston University
Segment-based stochastic models of spectral dynamics for continuous speech recognition
(Formerly at SRI International, now a Professor of EE at the Technical Institute of Crete in Greece.)
- Nanette Veilleux, SE Ph.D. 1994, Boston University
Computational models of the prosody/syntax mapping for spoken language systems
(Now an Assoc. Professor of Computer Science, Simmons College.)
- Owen Kimball, EE Ph.D. 1994, Boston University
Segment modeling alternatives for continuous speech recognition
(Now in the Speech Signal Processing Group, Raytheon BBN Technologies.)
- Ken Ross, EE Ph.D. 1995, Boston University
Modeling of intonation for speech synthesis
(Formerly at BBN, Alphatech, Whitehead Institute; current affiliation unknown.)
- Orith Ronen, BME Ph.D. 1996, Boston University
Dependence tree models of intra-utterance phone dependence
(Formerly at SRI International; now at Nuance.)
- Ashvin Kannan, EE Ph.D. 1997, Boston University
Adaptation of spectral trajectory models for large vocabulary continuous speech recognition
(Formerly at Nuance Communications, now at Yahoo.)
- Man-Hung Siu, EE Ph.D. 1998, Boston University
Learning local lexical structure in spontaneous speech language modeling
(Now in the Speech Signal Processing Group, Raytheon BBN Technologies.)
- Rukmini Iyer, EE Ph.D. 1998, Boston University
Improving and predicting performance of statistical language models in sparse domains
(Formerly at BBN, Nuance and Yahoo; now at Microsoft.)
- Michiel Bacchiani, EE Ph.D. 1999, Boston University
Speech recognition system design based on automatically derived units
(Formerly at AT&T Research, IBM Research; now at Google.)
- David Palmer, EE Ph.D. 2001, University of Washington
Modeling Uncertainty for Information Extraction from Speech Data
(Formerly at MITRE; now at Virage.)
- Izhak Shafran, EE Ph.D. 2001, University of Washington
Clustering wide-contexts and HMM topologies for spontaneous speech recognition
(Now an Asst. Professor at Oregon Health Sciences Institute/OGI.)
- Randall Fish, EE Ph.D. 2001, University of Washington
Dynamic models of machining vibrations, designed for classification of tool wear
(Formerly a Professor at Eastern Nazarene College; now a Professor at Messiah College.)
- Ivan Bulyko, EE Ph.D. 2002, University of Washington
Joint prosody prediction and unit selection for speech synthesis
(Now in the Speech Signal Processing Group, Raytheon BBN Technologies.)
- Rebecca Bates, EE Ph.D. 2004, University of Washington
Dynamic pronunciation modeling in spontaneous speech recognition
(Now Professor at Minnesota State University, Mankato, MN.)
- Ozgur Cetin, EE Ph.D. 2004, University of Washington
Multi-rate modeling, model inference and estimation for statistical classifiers
(Formerly at ICSI, Yahoo and Morgan Stanley; now at Premium Point Investments.)

- Constantinos Boulis, EE Ph.D. 2005, University of Washington
Topic Learning in Text and Conversational Speech
(Formerly at Stanford University and Medio Systems; now at Microsoft.)
- Xin Lei, EE Ph.D. 2006, University of Washington
Modeling lexical tones for Mandarin large vocabulary continuous speech recognition
(Formerly at Microsoft, SRI International and Google; now at Mobvoi Inc.)
- Arindam Mandal, EE Ph.D. 2007, University of Washington
Transformation Sharing Strategies for MLLR Speaker Adaptation
(Formerly at SRI International; now at Amazon.)
- Sarah Petersen, CSE Ph.D. 2007, University of Washington
Natural Language Processing Tools for Reading Level Assessment and Text Simplification for Bilingual Education
(Now at MITACS, Inc.)
- Dustin Hillard, EE Ph.D. 2008, University of Washington
Automatic Sentence Structure Annotation for Spoken Language Processing
(Formerly at Yahoo and Microsoft; now at Context Relevant.)
- Scott Otterson, EE Ph.D. 2008, University of Washington
Use of Speaker Location Features in Meeting Diarization
(Formerly at 3Tier; now at the Fraunhofer Institute.)
- Jeremy Kahn, Linguistics Ph.D. 2010, University of Washington
Parse decoration of the word sequence in the speech-to-text machine-translation pipeline
(Formerly at various start-ups, the Google; now consulting.)
- Anna Margolis, EE Ph.D. 2011, University of Washington
Automatic annotation of spoken language using out-of-domain resources and domain adaptation
(Formerly at Vlingo; now at Nuance.)
- Wei Wu, EE Ph.D. 2012, University of Washington
Graph-based algorithms for lexical semantics and its applications
(Now at Facebook.)
- Bin Zhang, EE Ph.D. 2013, University of Washington
Learning features for text classification
(Now at Google.)
- Brian Hutchinson, EE Ph.D. 2013, University of Washington (w/ M. Fazel)
Low rank models for speech and language processing tasks
(Now an Assistant Professor at Western Washington University) *Leveraging text from multiple genres in language processing*
- Julie Medero, EE Ph.D. 2014, University of Washington
Automatic Characterization of Text Difficulty
(Now an Assistant Professor at Harvey Mudd College)
- Amittai Axelrod, EE Ph.D. 2014, University of Washington (w/ X. He)
Domain adaptation for machine translation
(Now a research scientist at Johns Hopkins University.)
- Alex Marin, EE Ph.D. 2015, University of Washington
Effective use of cross-domain parsing in automatic speech recognition and error detection
(Now an engineer at Microsoft.)
- Nicole Nichols, EE Ph.D. 2016, University of Washington
Marine mammal species detection and classification
(Now at PNNL.)
- Sangyun Hahn, CSE Ph.D. candidate (on leave), University of Washington (w/ R. Ladner)
Semi-supervised learning techniques for annotating speech interactions

- Ji He, EE Ph.D. candidate, University of Washington
Deep reinforcement learning for text understanding
- Hao Fang, EE Ph.D. candidate, University of Washington
Source sequence segmentation for neural text generation with attention
- Aaron Jaech, EE Ph.D. candidate
- Vicky Zayats, EE Ph.D. candidate
- Yi Luan, EE Ph.D. candidate
- Trang Tran, EE Ph.D. candidate
- Hao Chang, EE Ph.D. candidate
- Kevin Lybarger, EE Ph.D. candidate
- M.S. Thesis Supervision: (15 graduated)
 - John Butzberger, Jr., M.S. EE 1989, Boston University
Statistical methods for intonation pattern recognition
 - Ibrahim Bechwati, M.S. EE 1990, Boston University
Structural alternatives in stochastic segment modeling for speech recognition
 - Burhan Necioglu, M.S. EE 1992, Boston University
Bayesian adaptation of the stochastic segment model for speech recognition
 - Ashvin Kannan, M.S. EE 1992, Boston University
Robust estimation of stochastic segment models for word recognition
 - Cynthia Fong, M.S. EE 1993, Boston University
Statistical models of duration for synthesis and recognition
 - Rukmini Iyer, M.S. EE 1994, Boston University
Language modeling with sentence-level mixtures
 - Fred Richardson, M.S. EE 1995, Boston University
Search algorithms for speech recognition
 - Rebecca Bates, M.S. EE 1996, Boston University
Linear channel estimation and compensation for recognition of telephone speech
 - Cameron Fordyce, M.S. EE 1998, Boston University
Control of prosodic patterns for speech generation in human-computer dialogs
 - Yuliya Lobacheva, M.S. EE 2000, Boston University
Discourse mixture language models
 - Hariharan Shivakumar, M.S. 2000, Boston University (w/ D. Castañón)
Estimating confidence of milling tool wear classification
 - Jay Joungbum Kim, M.S. 2004, University of Washington
Automatic detection of disfluencies in speech
 - Jeremy Kahn, Linguistics M.A. 2005, University of Washington
Moving beyond the lexical layer in parsing conversational speech
 - William McNeill, Linguistics M.A. 2006, University of Washington
Segmentation and Feature Selection for Conversational Speech Syntactic Language Models
 - Amy Dashiell, M.S. EE 2009, University of Washington
Automatic detection of frustration in spoken dialog systems using non-segmental features and context

UNIVERSITY SERVICE: (at the University of Washington)

- EE Department
 - Graduate program coordinator (2015-2016)
 - Promotion and Tenure Committee (2011)
 - Undergraduate admissions (2009, 2012)
